

EU MARIE CURIE POST-DOCTORAL POSITION

ON REGULATION OF GENE EXPRESSION

A Marie Curie Post-doctoral Fellowship funded by EU is offered on oncogenic/apoptotic signalling and regulation of gene expression by using RNAi and ChIP technologies in model systems (J. Biol. Chem. 260, 22856, 2005; Int. J. Cancer, 118, 2005, in press; J. Biol. Chem. 278, 21510, 2003). Previous experience in molecular, cell biology and/or biochemistry is required. The position is open for autumn/winter 2005 for up to 36 months and salary 3200 Euros/month plus allowances. The Institute provides a multidisciplinary scientific environment. Mobility and interactions with partner Labs are encouraged. Applications, CVs and referees contacts to be sent to:

Dr Alex Pintzas Tel: 30-210-7273753, Fax: 30-210-7273755, e-mail: apint@eie.gr. Laboratory of Signal Mediated Gene Expression, Institute of Biological Research and Biotechnology, National Hellenic Research Foundation, 48, Vas. Constantinou Avenue, 11635, Athens, Greece
