

## **PRESS RELEASE**

### **Swedish-Hellenic Life Science Research Conference 24-26 May 2007, at Örebro University**

The Örebro Life Science Centre (ÖLSC), Örebro University, organizes a "Swedish-Hellenic Life Science Research Conference" together with The National Hellenic Research Foundation (NHRF). NHRF is a multidisciplinary Research Centre established by Royal Decree on 9th October 1958. Its purpose is the organization, finance and support of high-level research projects in the natural sciences and the humanities. <http://www.eie.gr/index-en.html>

The aim of this conference is to establish a deeper research contact for research purposes with NHRF. A strong delegation consisting by 9 researchers included 3 directors and the President of NHRF, Professor Dimitrios Kyriakidis from Athens, will attend the meeting.

Attached please find the Final Conference Program

We are looking forward to meeting you in Conference, Örebro, Sweden.

Sincerely yours,

On behalf of Örebro Life Science Center
