

**Institute of Organic and Pharmaceutical Chemistry  
National Hellenic Research Foundation  
Marie Curie Fellowships**

**EU Marie Curie Host Fellowship for the Transfer of Knowledge (ToK)  
Development Host Scheme in Drug design at the molecular level  
using approximate and exact computational methods**

The Scheme seeks to recruit a theoretical chemist with extensive experience on Molecular Dynamics methodology that simulates biological environments, in an attempt to extract valuable information from the experimental data obtained using X-ray crystallography and design improved inhibitors of glycogenolysis, potential hypoglycaemic agents, in collaboration with Prof. G. Archontis (Theoretical and Computational Biophysics, Department of Physics, University of Cyprus).

Applicants should have a relevant PhD and more than 10 years research experience since their Bachelor degree. Applicants must meet the eligibility criteria for EU Marie Curie Fellowships which include:

Candidates must not have a Greek nationality

Candidates may not have resided or carried out their main activity in Greece for more than 12 months in the 3 years prior to the start of the Fellowship.

The taxable salary for a Fellow will be at least €61000 p.a. The Fellow may also be entitled to receive additional benefits such as travel and mobility allowances and career development awards. The appointment will be for an initial period of 12 months with a possibility of extension for an additional period of 12 months.

**To apply please send Curriculum Vitae, letter of interest and names of three references to:**
