Dear Professor Kyriakidis,

We are writing to extend our deepest sympathies concerning the passing away of Honorary Professor Constantine Sekeris. We were indeed shocked to hear the sudden death of prof. Constantine Sekeris.

It's a pity that such eminent scientist and researcher have passed away. To remind, one of his latest professional excellence and efforts was the promotion/driving force of the bilateral collaboration- in the areas of Medical and Life Science research- between the National Hellenic Research Foundation and the Swedish Örebro University.

The members of the Biomedicine Research Committee, Division of Clinical Medicine, School of Health and Medical Sciences, Örebro University, Sweden, offers the deepest sympathy for his loss to his family and to the members of The National Hellenic Research Foundation. We shall forever remember him as an outstanding personality and as a friend of Örebro University.
