

Online Workshop

Computational Materials Science

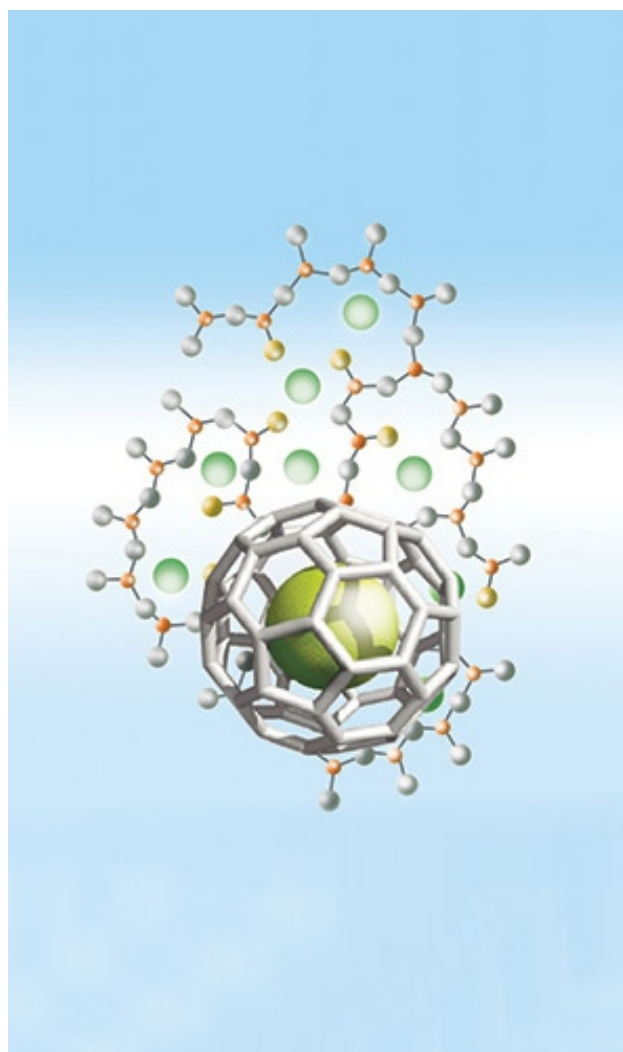

13-14 December 2025

Workshop Committee

Anastassia Rissanou (NHRF)

Odysseas Tsilipakos (NHRF)

Ioannis Remediakis (UoC)

Materials: Polymers, Solids, Nanocomposites, Liquid Crystals, Metamaterials...

Techniques: DFT, Molecular Dynamics, Monte Carlo simulations, PDEs & ODEs...

Applications: Nonlinear photonics, Quantum technology, Neuromorphic computing...

Participation

FREE for HSSTCM members
who have paid their 2025
membership fee by December 10

Certificate of Attendance
for all participants
